NATURAL STONE FROM TÜRKIYE — SUPPLIED & DELIVERED IN THE UK

Limestone

3 materials · Formats, finishes and applications

ABOUT THIS CATALOGUE

Stone, without the import risk.

Soft, even-toned and quietly architectural. A favourite of UK specifiers for cladding, flooring and period-sensitive work. Seagrass, Perla and further Turkish limestones are available on request.

Karpāt Trading Ltd is a UK-registered supplier of Turkish natural stone. We import on our own account and sell delivered within the UK — customs, freight and currency are handled on our side, so you buy as you would from any domestic supplier.

This catalogue presents the core of our supply range. It is a selection, not a boundary: our quarry and factory partners in Türkiye produce a far wider range of materials, formats and custom profiles. If you are looking for a stone that is not shown here, ask — we can almost certainly source it.

We do not publish a price list. Natural stone is priced by material, format, finish and volume, so every enquiry receives a project-specific delivered quotation, normally within two working days.

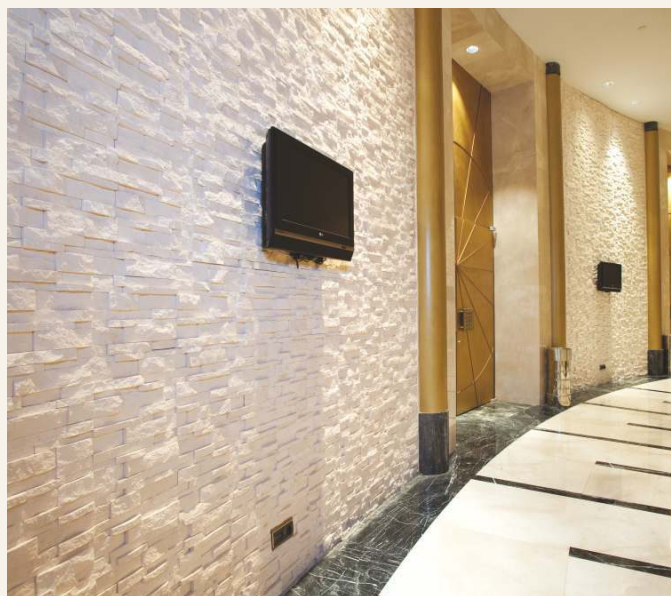

Photography is representative of each material. Natural stone varies by block and lot; final selection is confirmed against photographs of the actual production before any order is placed.

Packing, Crates & Delivery

All stone travels in seaworthy wooden crates and A-frame bundles, strapped for mechanical offload. Stone is heavy — weight, not volume, is what fills a container — so the economics change with thickness. Figures below are indicative, based on marble at 2.7 t/m³ (travertine and limestone run roughly 5–10% lighter); exact crate sizes, weights and quantities are confirmed line-by-line with every quotation and again at dispatch.

PRODUCT	TYPICAL PACKING	INDICATIVE WEIGHT
Tiles 12 mm	Seaworthy wooden crates, ~45–55 m ²	~32 kg/m ² · 1.5–1.8 t per crate
Tiles / cut-to-size 20 mm	Wooden crates, ~28–36 m ²	~54 kg/m ² · 1.5–1.9 t per crate
Slabs 2 cm	A-frame bundles, 10–12 slabs	~240 kg per slab · 2.4–3.0 t per bundle
Slabs 3 cm	A-frame bundles, 7–9 slabs	~360 kg per slab · 2.5–3.3 t per bundle
French-pattern sets	12 mm: ~45–50 m ² · 30 mm: ~20–26 m ² per crate	1.4–2.0 t per crate
Mosaics & borders	Boxed by sheet, palletised	~25 kg/m ² · 0.8–1.0 t per pallet
Copings, steps & bespoke profiles	Crated to profile	Per drawing

SLAB / TILE THICKNESS	12 MM	20 MM	30 MM
Approx. m ² per 20 ft container	~750 m ²	~450 m ²	~300 m ²

- CONTAINER LOADS

We plan to a road-safe payload of ~25 tonnes per 20 ft container, so thickness — not floor area — sets how much fits, as above. A 40 ft container holds little more of a dense stone: the weight limit is reached long before the space is, so we ship and price in 20 ft loads and optimise mixed stowage accordingly.
- UK DELIVERY

Goods are imported on our account and delivered within the UK. Crates and bundles are offloaded by your forklift as standard; where no forklift is on site, delivery with truck-mounted forklift (Moffett) or crane offload can be arranged. Slab bundles always require forklift or crane of suitable capacity — please flag access constraints at enquiry.
- DOCUMENTATION

Every dispatch is accompanied by a full packing list — crate numbers, contents, dimensions and weights — issued before the goods leave our warehouse partner.
