NATURAL STONE — SUPPLIED & DELIVERED IN THE UK

Outdoor & Landscaping

Travertine, limestone & 20 mm porcelain · Paving, copings and walling

ABOUT THIS CATALOGUE

Stone, without the import risk.

Travertine, limestone and 20 mm porcelain for patios, pool surrounds, steps and garden walls — tumbled pavers, French-pattern sets, copings, split-face walling and rectified porcelain pavers.

Karpat Trading Ltd is a UK-registered supplier of natural stone and outdoor porcelain. We import on our own account and sell delivered within the UK — customs, freight and currency are handled on our side, so you buy as you would from any domestic supplier.

This catalogue presents the core of our supply range. It is a selection, not a boundary: our quarry and factory partners produce a far wider range of materials, formats and custom profiles. If you are looking for a stone that is not shown here, ask — we can almost certainly source it.

We do not publish a price list. Natural stone is priced by material, format, finish and volume, so every enquiry receives a project-specific delivered quotation, normally within two working days.

Photography is representative of each material. Natural stone varies by block and lot; final selection is confirmed against photographs of the actual production before any order is placed.

REFERENCE

Packing, Crates & Delivery

All stone travels in seaworthy wooden crates and A-frame bundles, strapped for mechanical offload. Stone is heavy — weight, not volume, is what fills a container — so the economics change with thickness. Figures below are indicative, based on marble at 2.7 t/m³ (travertine and limestone run roughly 5–10% lighter); exact crate sizes, weights and quantities are confirmed line-by-line with every quotation and again at dispatch.

PRODUCT	TYPICAL PACKING	INDICATIVE WEIGHT
Tiles 12 mm	Seaworthy wooden crates, ~45–55 m ²	~32 kg/m ² · 1.5–1.8 t per crate
Tiles / cut-to-size 20 mm	Wooden crates, ~28–36 m ²	~54 kg/m ² · 1.5–1.9 t per crate
Slabs 2 cm	A-frame bundles, 10–12 slabs	~240 kg per slab · 2.4–3.0 t per bundle
Slabs 3 cm	A-frame bundles, 7–9 slabs	~360 kg per slab · 2.5–3.3 t per bundle
French-pattern sets	12 mm: ~45–50 m ² · 30 mm: ~20–26 m ² per crate	1.4–2.0 t per crate
Mosaics & borders	Boxed by sheet, palletised	~25 kg/m ² · 0.8–1.0 t per pallet
Copings, steps & bespoke profiles	Crated to profile	Per drawing

SLAB / TILE THICKNESS	12 MM	20 MM	30 MM
Approx. m ² per 20 ft container	~750 m ²	~450 m ²	~300 m ²

CONTAINER LOADS

We plan to a road-safe payload of ~25 tonnes per 20 ft container, so thickness — not floor area — sets how much fits, as above. A 40 ft container holds little more of a dense stone: the weight limit is reached long before the space is, so we ship and price in 20 ft loads and optimise mixed stowage accordingly.

UK DELIVERY

Goods are imported on our account and delivered within the UK. Crates and bundles are offloaded by your forklift as standard; where no forklift is on site, delivery with truck-mounted forklift (Moffett) or crane offload can be arranged. Slab bundles always require forklift or crane of suitable capacity — please flag access constraints at enquiry.

DOCUMENTATION

Every dispatch is accompanied by a full packing list — crate numbers, contents, dimensions and weights — issued before the goods leave our warehouse partner.
